S.M. MOSTAFA JAMAL

Software Engineer

SUMMARY

Hands-on experience over 1.5+ years in Fintech software development lifecycle and end-to-end project management, from concept through to development and delivery. I excel in problem-solving, thriven in a team environment, passionate and self-driven developer with a passion to develop my skills in new technologies. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at Softrobotics Bangladesh Limited

October 2022 — Present

- Collaborated with a team on integration software - SIPAY, which is based in TURKEY.
- Implemented new features for SIPAY and, also for other same kinds of brands like - PAYBUL, PAPEL, FASTPAY, etc.
- Implemented payment integration software on different types of platforms. Designed API and integration for software. Used factory design pattern.
- Applied agile methodologies like SCRUM sprint for project management.
